Hauts-de-France
Nord Pas de Calais – Picardie

Plus de 300
événements

Partez sur les routes des **parcours scientifiques en pays de Saint-Omer et de l'Ouest Amiénois**, à la rencontre des acteurs du monde scientifique et technique. Profitez des nombreuses autres animations sur tout le territoire : expositions, spectacles, expériences insolites, ateliers pédagogiques, débats...

-
- The map illustrates the Paris Basin, a major geographical and administrative region in northern France. It is divided into five departments, each color-coded and labeled in large orange letters:
- PAS-DE-CALAIS** (Pink): Located in the northwest, it includes cities like Calais, Arras, and Lille. The Scheldt river flows through its eastern part.
 - NORD** (Light Blue): Located in the northeast, it includes cities like Valenciennes, Cambrai, and Lille. The Scheldt river flows through its western part.
 - SOMME** (Yellow): Located in the west, it includes cities like Amiens and Compiègne. The Oise river flows through its eastern part.
 - OISE** (Light Orange): Located in the south, it includes cities like Compiègne and Senlis. The Oise river flows through its northern part.
 - AISE** (Light Green): Located in the southeast, it includes cities like Soissons and Compiègne. The Oise river flows through its northern part.
- Major cities and towns are marked with pink dots and labeled. The map also shows the Scheldt and Oise rivers, as well as the Paris Basin itself. The surrounding regions are in various shades of green and yellow.
